

# Somero® Laser Screed Virtual Training Simulator powered by ForgeFX™

At Somero®, we are always looking for ways to better support our customer's business, and this laser screed® machine training simulator does just that.

This simulator puts the machine operation into your team's hands without having to worry about:

- Costly travel
- Lost time on active jobs
- Inconsistent Training
- High turnover on trainees

Training Modules Include:

- Walk Around Inspection
- Oasis Display Menus Tour
- Transportation
- Screed Head Setup
- Laser System Setup
- Screeding Operations
- Cockpit Familiarization & Basic Controls
